

COMPOSITE
DECK COMPANY

Classic Composite Railing System

Add the finishing touch to your composite decking project with the addition of the Composite Railing System.

Available in a traditional brushed finish and three colours to complement our Woodgrain Classic Composite Decking, our railing system will enhance the look of your outdoor space while providing additional safety benefits.

- **Three colours available - Brown, Graphite & Silver Grey**
- **Will not rot like traditional timber**
- **Requires no painting or staining**
- **Low maintenance**
- **Brushed finish**
- **Splinter free**

Size: 1600 x 885mm

Railing Kit Contents:

- 1no - Post - 100x100x1200mm
- 1no - Hand Rail - 90x40x1500mm
- 1no - Base Rail - 90x40x1500mm
- 1no - Aluminium Base Rail Support Bar
- 4no - Hand & Base Rail Brackets & Screws
- 9no - Spindles 60x40x800mm
- 18no - Spindle Lug & Screws
- 1no - Post Mount 50x50x600mm
- 4no - Hex Head Coach Screws
- 1no - Post Cap
- 1no - Post Skirt

Guidance:

Post mounts must be secured to sub frame to ensure sufficient holding strength. Fit post mount using hex head coach screws. Post can then be placed over the post mount and post skirt fitted.

Two lugs are provided for each spindle. One each end, staggered. It is essential that tolerances are designed into composite railing and fencing systems, to accommodate thermal expansion. To reduce any movement, we advise that a small dot of polymer silicone is applied to the side of lugs, and post mounts, before components are connected.

An aluminium support bar is supplied to insert in the central chamber of the base rail to provide additional rigidity.

When fitting base or hand rail into brackets, ensure a 2mm expansion gap is allowed between the rail ends and back plate of bracket.

An additional Post Kit may be required to complete your project.

Post Kit Contents:

- 1no - Post - 100x100x1200mm
- 1no - Post Mount 50x50x600mm
- 4no - Hex Head Coach Screw
- 1no - Post Cap
- 1no - Post Skirt

Colours available:

Brown

Graphite

Silver Grey
